PROFILE

I'm passionate about learning and problem-solving, aiming to become a skilled software engineer to make a positive impact. I am particularly interested in full-stack development, software engineering, and software architecture, and I'm excited about growing in these areas to create innovative solutions.

EDUCATION

- 07/2022 – 07/2026 **BSc (Hons) in Software Engineering**
Faculty of Computing, Sabaragamuwa University of Sri Lanka
3.4 GPA
- 07/2018 – 07/2020 **GCE Advanced Level – Physical Science Stream**
Nalanda Boys' College, Minuwangoda
1.4 ZSCORE

PROJECTS

- 02/2024 – present **Dambulla Dedicated Economic Centre Smart System** 
Semi-Government Organization
In a major project for a semi-government organization, I contributed to the design and development of an integrated smart management system, including a shop rent collection system, vehicle station ticketing system, and an informational website, all using microservices architecture. I was involved in software architecture, business analysis, project management, backend and frontend development, and testing. We are now nearing the final stages of delivery, ensuring scalability and a seamless user experience.
- 01/2023 – 01/2024 **Smart Agricultural Support System (AI-based)** 
Developed an AI-powered system for crop recommendation, disease identification, and market analysis. Contributed to crop recommendation AI, disease detection, AI chatbot integration, and marketplace AI for optimized pricing. Oversaw system integration to ensure scalability and efficiency.
- 01/2022 – 01/2023 **Counseling App**
Developed an app that identifies human mood and provides counseling through video, music, and chat. The app secured 3rd place in the TEDxHack Sri Lanka and ranked among the top 10 in the competition.
- 2023 – 2024 **Medical Centers project** 
Developed a university medical system - admin/doctor dashboards, online medical applications, and medication stock management.

TECHNICAL SKILLS

Design & Modeling

Figma, Draw.io [↗](#)

Backend

Django, Spring Boot, Node.js

Testing & Automation

Selenium, Jest

Networking & Security

Cisco Packet Tracer

Computer Languages

Java, JavaScripts, Python, Php

Frontend

React, HTML, CSS

Database

MySQL, MongoDB

DevOps & Deployment

AWS (EC2, S3, RDS), Docker, Jenkins

Version Control

GitHub

SOFT SKILLS

Problem Solving | Requirements Gathering | Photo & Video Editing | Time Management |
Collaboration | Leadership | Adaptability | Fast learning

INTERESTS

Traveling • Music • Research • Movie's

EXTRACURRICULAR ACTIVITIES

2023 – 2024

Technical Assistance

International Conference on Advances in Research in Computing, Sabaragamuwa University of Sri Lanka

2022 – present

Member

Society of Computer Sciences (SOCS) - SUSL

2022 – 2023

Graphic Designer

ZeroPlastic Community at Sabaragamuwa University

AWARDS

2024

Semifinals - SLIoT Challenge 2024

Department of Computer Science & Engineering, University of Moratuwa

2023

Second Runners up - IEEE INSL Sabaragamuwa Province Competition

IEEE Student Branch in Sabaragamuwa University of Sri Lanka

2023

Finalists TADHack Sri Lanka 2023

hSenidMobile Solution

2023

Finalist in PowerUp 1.0

IEEE Power & Energy Society of University of Peradeniya
